Week 3: Find Solid Shelter

Card Tower

A fun game to show the importance of building on a solid foundation.

Activity Objective

Build the tallest tower of cards you can.

You'll Need

- Deck of cards (1 per group)

Instructions

1. **Note 1:** If your experience is small, you can play as one combined group.
2. **Say:** Okay, Loop group. We're going to build the tallest tower of cards we can. And we're all going to work together. The only rule is: **Each student has to put at least one card on the tower.** Let's go!
3. Groups **build** the tower of cards as quickly and as high as possible.
4. **Allow** students to decide every detail about the tower-building themselves. They choose the location to build, the way they'll stack the cards, etc.
5. When it's time to stop, cheer for how high your group was able to build their tower. (Or celebrate their efforts if the tower fell!)
