ACTIVITY GUIDE

Out of the Ordinary
Week 2: Upgraded

Draw Challenge

For this activity, students will figure out their identity as sons and daughters in Christ.

Activity Objective

Draw your picture in five lines or less—until you get an upgrade!

You'll Need

- Paper (1 sheet per student)
- Markers (1 set per group)

Instructions

1. **Give** the students one sheet of paper each.
2. **Say:** Think about something you really like and want to draw. It can be anything you want. But here's the catch: you can only draw this with five lines. They can be straight or curved, but you can only draw using five lines. Here's the other catch: **Each line can be no longer than about 1 inch.** And, you only have a few seconds. Ready? Go!
3. After no more than about thirty seconds are up, tell the students to stop.
4. Spend a moment allowing students to share what they drew with one another.
5. **Say:** Now, you get to expand your drawing by using five more lines. You got an UPGRADE! You can have a few more seconds to add five more one-inch lines in 3 ... 2 ... 1 ... GO!
6. After thirty seconds (max) are up, tell the students to stop. Again, allow students to share what they drew for a moment.
7. Repeat steps 5 and 6 for as many rounds as time allows.
8. **Say:** Every time you got to add more lines, your drawing got an upgrade. It's like how God makes us His sons and daughters. He adopts us into His family. We receive the promise of eternal life with God when we accept Him. When we decided to follow Him, we are UPGRADED!
